ZYXEL ATP700

cena vč DPH: **60556 Kč**

cena bez DPH: 50046 Kč

Kód zboží (ID):	4369466
PN:	ATP700-EU0102F
Záruka:	60 měsíců

ATP700 is by default bundled with a non-transferable one-year Gold Security Pack license. When renewing for the second year with either one-year, two years, or four years of Gold Security Pack, the license will be transferable. Advanced Protection for Evolving Threat Cyber attacks of today are multiplying in large volumes along with more diverse forms of threats including – crypto jacking, malware, surging ransomware variants, and many more! ZyWALL ATP Firewall is empowered with smart cloud intelligence giving seamless protection against all those Advanced Persistent Threats, achieving ultimate in-depth defense of future unknown attacks. Block it. Learn it. Prevent it. Block Unknown Threats Multi-Layer Protection from default bundled security service can block malicious and suspicious traffic, ensuring wellbeing of your business network Cloud Machine Learning Zyxel Cloud intelligence identifies unknown files from all ATP Firewalls, accumulates results in database and gives all ATP a daily update, effectively turning every new threat into a new piece of intelligence and continuously grow with self-evolving security ecosystem that adapt to new advanced attacks at all times. Sandboxing Sandboxing is an isolated cloud environment that contains unknown files to identify new malware types that conventional static security mechanism cannot detect, ensuring protection against zero-day attacks. Reputation Filter Reputation Filter matches up IP addresses with a real-time cloud database that tracks malicious cyber activities and determines if its address is reputable or not. This improves blocking efficiency, reduces hardware utilization, giving administrators additional network resources to quickly and easily address any issues. Reputation Filter also increases threat visibility in SecuReporter (included in bundle pack) which assists in tracing cyber threat sources. Reporting & Analytics ATP Firewall dashboard gives user-friendly infographic traffic summary and threat statistics. Users can also utilize SecuReporter for further comprehensive threat analysis.
